MEMORANDUM

LOG NO: 2010.0413
DOC NO: 1002NM58

TO: Morris Atta, Administrator
Land Division, DLNR

FROM: Nancy A. McMahon (Deputy SHPO),

Archaeology and Historic Preservation Manager

Subject: **Chapter 6E-8 Historic Preservation Review— (Land Division)**
Potential DLNR Lands to be ID-ed- as important Ag Land to be Transferred to
DOA pursuant to Act 233
Oahu, Hawai'i
TMK: (1) 4-1-008: 45, 46, 59, 71, 72 4-1-013: 011, 17, 4-1-009: 262; 5-4-014: 003, 5-8-
001: 38, 43, 53, 5-9-031: 011

Many of these parcels have had no archaeological work conducted on them. If the land is currently under agricultural activity and this activity is to be continued, then no historic properties will be affected.

If the land is currently vacant and subsurface activities are planned, i.e. grubbing, grading or building then we recommend the following condition: an archaeological inventory survey be conducted by a qualified archaeologist on these parcels prior to this land disturbance activity. If significant historic properties are identified then agreed upon mitigation must be completed prior to the activity being commenced.

Please call me at (808) 692-8015 if you have any questions or concerns regarding this letter.
